Greetings!

Welcome to our holiday edition of our Level Rite Concrete newsletter! You have a front seat with our news and developments which relate to concrete lifting and our clean & seal service. Plus exciting happenings in our communities.

Who is ready for Winter? Well, we are here for you! Call us with questions about how to prep your concrete for colder temperatures. We know it is coming sooner or later, poor weather can take a toll on our concrete. Here are three tips for preparing your concrete for the Winter months ahead.

Tips For Preparing Your Concrete For Winter

Snow has already fallen on many cities across the country, which

might be a sign that winter is upon us. Before the icy part of the winter weather hits, take the time to prepare your exterior concrete surfaces. Proper maintenance and protection will not only enhance and preserve its appearance but also greatly extend the life of your concrete. Here are three steps you can take to prepare your concrete for the winter months.

1. Give It a Good Cleaning

It can be difficult to tell when concrete needs cleaning because the dirt and grime build up slowly over time. But the reality is, your concrete has been exposed to all kinds of foot and vehicle traffic, the environment/weather, and even stains. Therefore, we recommend cleaning your concrete at least once per year. So, before winter hits, it would be an excellent idea to give it a good cleaning before any of the stains set in. We offer concrete cleaning to help take away the grime.

The conditions your concrete has faced will determine how much cleaning will need to be done. If the concrete is heavily walked or driven on, exposed to falling leaves, or affected by other environmental factors, then it will probably need a more intensive cleaning. Our concrete cleaning professional will know which methods and products are best for cleaning concrete effectively without damaging the surface.

2. Fix Minor Cracks

We do crack repair! Minor cracks may seem like no big deal, but if not dealt with quickly, they can worsen especially if water or salts enter the crack. If this happens, freeze-thaw expansion may occur making the cracks worse. Fixing cracks will ensure that your concrete maintains a structurally sound surface and will minimize water intrusion. If you choose to fix the cracks yourself, be sure to use the right tools and materials to repair and seal them up. Otherwise, give us a call for a free estimate.

3. Apply a Fresh Coat of Sealer

Concrete does not necessarily have to be sealed to perform well, but applying a high-quality sealer will add benefits that are worth every penny you spend. Sealing a driveway extends its life and improves its appearance.

Applying a fresh coat of sealer can be a do-it-yourself project. Or you could make your life easier by simply hiring a professional like us! With the right sealer, you can improve your concrete's resistance to freeze-thaw exposure and deicing chemicals. A fresh coat of sealer will also make concrete much easier to clean in the spring.

Clean and Seal Your Concrete

Amazing condo living driveway in Crown Point, IN. The left side driveway is sealed and the right side driveway is not. Find out what many already know, Level Rite Concrete can clean and seal your concrete! We use a sealer that will protect your concrete surfaces from the effects of exposure that cause the damage: severe conditions like rainwater, repeated melting and freezing, and road salts, or de-icers. We will seal the surface, and infiltrate the pores of the concrete, keeping these conditions from further

damaging your concrete. This product will eliminate many concrete problems, but will not change the appearance or the texture of the surface. It also will not discolor the concrete, or

cause it to be slippery. Your concrete will be easier to clean, is salt, UV, and stain resistant, and environmentally responsible.

Santa March and Tree Lighting Ceremony (Highland, IN)

Ho Ho Ho

What a great event. We decorated the truck and had a great time in the parade. Thank you Erica Wolak from The Shopper for hosting a great parade with Santa going through downtown Highland, ending at the Main Square Gazebo. Lighting of the Main Square Park was awesome and Santa and his Reindeer (Dancer) greeted the kids! Join us next year and make it an

annual tradition.

Keep Them Clear, Fire News Says

Help your local fire department this year by making sure that fire hydrants around your area are clear of debris and especially snow look at this picture for a great guideline.

Also a reminder, keep those sidewalks clear for children walking to school.

Happy Holidays

From our family to yours, Merry Christmas.
May this holiday season fill your home with joy,
your hearts with love and your life with laughter.
Blessings for a Happy New Year!
Jennifer & Joe

Thank You For Your Business!

**We totally love our customers!
Thank you all for being so awesome!**

Last chance in 2016 to WIN this month's giveaway... We have had some awesome winners thus far! Please leave a

testimonial about our work on [Facebook](#). We appreciate your comments!

Thank you for joining us for our newsletter. We appreciate YOU! TALK TO US! We welcome your comments and suggestions at any time!

Please help us spread the word - by forwarding this email to your family and friends. There is an easy link below.

We love our fans! Please remember to **LIKE** us on [Facebook](#), **FOLLOW** us on [Twitter](#) and **CONNECT** with us on [Google+](#).

Have an awesome day!

Sincerely,

Joe and Jenn
