Greetings!

Welcome to our 2018 first newsletter! Wow! Another year has come and gone. So many highlights to talk about: voted #1 in Concrete Repair by the Northwest Indiana Times! Jennifer was nominate for 2017 Influential Woman of the Year and Level Rite Concrete was nominated for the Society of Innovators (for bringing foam to the region to lift uneven concrete) just to name a few.

Many reflections we (Joe and Jennifer) talk about regarding the great customers we have met and became friends with! From all the jams, jellies and homemade egg rolls we have received while working at your homes, we treasure the opportunity to be of service. Thank you so very much.

We hope you and your family had a Merry Christmas! Happy New Year from our family to yours! Here is to an awesome 2018 all around!

SWAT Event Fundraiser

We were proud to support the Northwest Regional SWAT event at the Halls of St. George on December 8. This team is multi-jurisdictional emergency response team comprised of nine police departments in Northwest Indiana. They are responsible for the protection of approximately 200,000 residents in an area that is over 130 square miles. Wow!

It was an awesome event that raised lots of money so they can continue to protect and serve.

Level Rite Concrete, What A Difference An Inch Can Make

Who We Are

Level Rite Concrete Lifting is your solution to lift, level, and stabilize failed or sunken concrete. We are based in Munster, IN and very integrated in our hometown communities of Munster and Northwest Indiana. Find out what others already know. You can count on Level Rite Concrete Lifting for prompt attention, integrity, quality work and the right solution at a fair price. Our commitment to excellence far exceeds the normal standards. We look forward to being of service.

What We Believe

Concrete often fails due to poor soils, voids, tree roots, moisture, etc. With our polyurethane foam injection process, we can inject the foam into the soil, which will result in filling and expanding into all the voids, lifting and aligning the concrete, stabilizing the soil and concrete from moving again. The polyurethane foam, once injected into the soil, quickly integrates with the soil, and expands into a lightweight, stable, durable material, which will increase the soil load bearing capacities.

Technology

The polyurethane has an impressive lifespan, for it is not affected by water, does not change its shape or form, and will not break down over time as other materials often do. This technology is now the preferred concrete repair solution for residential, municipalities, DOT's and commercial projects. From projects on interstate highways, to a single concrete slab at a residence, our process is so cost effective, that no job is too big or too small.

Quality & Safety

We take pride in the fact that we provide the highest quality customer service, products and follow safety procedures each and every day. We ensure our equipment is the latest and greatest for our customers. Rest assured, service is our business!

What Keeps Us Up At Night

We understand that we do not exist without our customers. You deserve safe, long-lasting products along with our skills to make them successful. We can't rest until all questions are answered. Some companies just say they answer all inquiries, we actually do it! Test us! Call us, leave us a message if we do not answer, we will call you back!

Who Do We Want To Be

We want to be our customers' most trusted concrete repair company. We want to be the

leader in this space for Northwest Indiana. We want to continue learning and creating. We strive to stand ahead of the curve and we want to be proud of the great solutions we provide!

Wrapping Up Level

Level: The Elf On Our Shelf

Thanks to each of you for following Level each day on our Facebook and various social media pages. He was sometimes naughty, silly and nice this year! We think he was pretty awesome sharing his Christmas magic with us each day at work. Joe and I hope to see you next year, thank you for making our December so fun.

Thank You For Your Business And Happy New Year!

We totally love our customers! Thank you for being so awesome!

For a chance to WIN this month's giveaway... Please leave a testimonial about our work on [Google+](#) or [Yelp](#). We appreciate your comments!
